Driveway

DRIVEWAY -SECTION 4.06 OF ZONING ORDINANCE

Permits Needed: Driveway

- City allows replacement of driveways within the existing footprint, however, you must show before and after evidence that the same footprint was used.

Application Requirements:

- Before photo
- Site plan with measurements of proposed driveway
- Must inform City of material to be used

Requirements:

- At least 1 foot of green space is required on each side of the driveway.
- Driveway may be no wider than 22 feet, except for the portion of the driveway within 30 feet of the front of the garage and directly in front of the garage doors.
- The maximum driveway width within 30 feet of the front of a garage shall not exceed 24 feet.
- Culverts may be required if ditching is present

Inspections: 2; Form and Final

- Form inspection is done before driveway is poured.
